

TEJES RAJU INGOLE

Data Analyst | Aspiring Data Scientist

Aspiring Data Scientist & Analytics Professional

PROFILES & CONTACT

- ingoletejes@gmail.com
- +91 8329232798
- Hyderabad, Telangana, India
- LinkedIn Profile
- GitHub Profile
- Portfolio Website
- Kaggle Profile

TECHNICAL SKILLS

- Python
- SQL
- Power BI
- Excel
- Machine Learning
- EDA & Feature Engineering
- Time Series Forecasting
- Deep Learning (ANN, CNN, RNN)
- MLops (Foundational)
- Generative AI & Prompt Engineering
- GitHub & Streamlit

CERTIFICATIONS

- Data Science – ExcelR (2025)
- Data Analytics – ExcelR (2025)
- Data Analytics with Python – NPTEL (2025)

LANGUAGES

- English (Professional)
- Hindi (Professional)
- Marathi (Native)
- Telugu (Basic)

HOBBIES & INTERESTS

- Playing Cricket
- Watching Movies
- Listening to Songs
- Solving Numerical Mathematics

TEJES RAJU INGOLE

DATA ANALYST | ASPIRING DATA SCIENTIST

PROFESSIONAL SUMMARY

Aspiring Data Scientist with hands-on experience in Excel, Power BI, Python, and SQL, specializing in data analysis, feature engineering, and predictive modeling. Worked on real-world projects involving forecasting, classification, and time-series analysis, delivering actionable insights through dashboards and machine learning models.

EDUCATION

B.Tech – Electrical Engineering | Minor in Data Science

MIT, Chh. Sambhajinagar, Maharashtra | Dec 2021 – Jun 2025 | CGPA: 8.0

HSC (12th)

Janta Highschool, Naigaon, Nanded, Maharashtra | Percentage: 86%

SSC (10th)

Rajarshi Shahu Vidyalaya, Nanded, Maharashtra | Percentage: 80.60%

TRAINING & INTERNSHIPS

Data Analyst Intern

Rucha Engineers Private Limited | Jan 2025 – May 2025

- Built Excel & Power BI dashboards for maintenance KPIs using structured maintenance data.
- Standardized check sheets and analyzed failure patterns for preventive maintenance insights.
- Generated maintenance insights using operational and KPI datasets.

Data Science Certification & Project-Based Internship (AI Variant)

ExcelR Solutions | Hyderabad, Telangana, India | Jun 2025 – Present

- Built strong theoretical and practical understanding of core data science concepts.
- Completed 20+ structured assignments covering real-world data science use cases.
- Performed EDA, feature engineering, model training, and evaluation across multiple datasets.

CAPSTONE PROJECTS

Solar Power Generation Prediction

[GitHub](#) [Live Demo](#)

- Built regression and ensemble models to forecast solar power generation from historical data.
- Optimized XGBoost to achieve $R^2 = 0.90$ on validation data.
- Deployed a Streamlit application for real-time prediction and visualization.

Alzheimer's Disease Classification

[GitHub](#) [Live Demo](#)

- Developed a machine learning classifier with feature engineering to detect Alzheimer's disease.
- Compared models using ROC-AUC and accuracy, achieving ~90% performance with XGBoost.
- Delivered an interactive Streamlit-based prediction interface.

Apple Stock Price Forecasting & Market Trend Analysis

[GitHub](#) [Live Demo](#)

- Forecasted Apple stock prices using time-series and machine learning techniques.
- Analyzed trends, seasonality, and volatility in historical market data.
